

GRADUATION EXERCISE

It shall be the policy of the Cambridge School Committee that there shall be no discrimination in the regular public graduation ceremonies of the grammar schools or the high school against any student who is in a program other than the standard school program. All students, whether special needs, bilingual, regular or other, who have fulfilled the requirements of their programs, shall be eligible to participate in the same respective graduation ceremonies. For example, they shall all be seated or placed together. Students who are not in the standard program shall not be treated any differently from any other students in the graduation ceremony or in the handing out of diplomas or certificates. All students shall be treated with equal respect.

Adopted: June 5, 2001
